[Portfolio](#)

I am a proactive, organized, and responsible individual. Currently, I'm a student of Information Systems Engineering at Universidad Latina de Costa Rica, in my second year of study. I have experience in teamwork and leadership, I am good at problem-solving and learning new technologies. I am passionate about artificial intelligence and programming, and I am always seeking for opportunities to apply my knowledge and skills in innovative and challenging projects.

EDUCATION

2023 - Present

Universidad Latina de Costa Rica

Information Systems Engineering

Udemy

Certification in Generative Artificial Intelligence
and LLM Applications (Ongoing)

SKILLS

- Programming in Python, Java, C++, C#, JavaScript
- Fullstack web development with React
- Fullstack mobile development with MAUI .NET
- Desktop application development in Java
- Administration and use of Linux distributions
- Database management (SQL)
- Networking knowledge (CCNA 1 and 2 version 7.0)

RELEVANT PROJECTS

- Creation of fullstack applications (Web and Mobile)
- Testing with Postman and Cypress
- Implementation of data structures in C++
- Use of virtual machines for testing and development in Linux
- Development of Arduino projects

Check my **portfolio** to see more

INTERESTS

- Research and development in artificial intelligence
- Disassembly and repair of hardware
- Programming and software development
- Constant learning and curiosity about how things work

LANGUAGES

- Spanish: Native
- English: B2 (Upper-Intermediate)
